

# Construction Document Management Built for Project Teams

When construction project teams have the right information at the right time, work happens faster.

BIM 360® Docs lets you publish, manage, review and approve all construction drawings, documents and models -- anytime, anywhere.

## Benefits

### More Time. Less Rework

Live updates and version control allows project teams to spend less time fighting with files and more time building.

### Increased Collaboration

View, share, and review files with team members and project stakeholders to help everyone stay connected.

### Single Source of Truth

Documents, plans and models in one place – with accessibility anytime or anywhere – to always stay current and connected.

## Capabilities

BIM 360 is a connected cloud platform for construction professionals, both in the office and on the jobsite, leading to faster project delivery and more predictable outcomes.

### Document Control

Set permission levels to keep the right information in the right hands.

### 2D & 3D Workflow Support

View, markup, edit, and publish both 2D and 3D drawings and models.

### Drawing Markups

Create and share 2D and 3D markups for collaborative constructability reviews.

### Mobile Access

Mobile accessibility on iOS and Android as well as offline sync functionality.

### Version Control

Quickly review changes from one revision to the next.

### Publish Drawings

Extract document sets from design files and automate with OCR title block data.

# Connect, organize & optimize your projects with BIM 360

BIM 360 Docs is the common data platform for BIM 360 and is included in three additional BIM 360 subscription offerings (Design, Coordinate, and Build).

## **B** AUTODESK® BIM 360® DESIGN

Connect teams, enable secure real-time design collaboration, manage the exchange of design data, and easily understand design changes.

### KEY CAPABILITIES:

- Revit cloud worksharing
- Access controls
- Tracking & timeline
- Coordinate deliverables
- Change visualization
- Assign issues & add markups

## **B** AUTODESK® BIM 360® COORDINATE

Streamline VDC & BIM workflows with model coordination and automatic clash detection.

### KEY CAPABILITIES:

- 3D model access & navigation
- Aggregate, filter & view models
- Create coordination spaces
- Automatic clash detection
- Clash matrix
- Model aggregation
- Issue management
- 2D & 3D compare

## **B** AUTODESK® BIM 360® BUILD

Manage the creation and resolution of RFIs & Submittals and support proactive quality and safety management programs.

### KEY CAPABILITIES:

- RFI & submittal management
- Checklist templates
- Mobile inspections
- Issue management
- Root causes
- Daily logs
- Reporting & analytics

### **+** COST MANAGEMENT (add-on to BIM 360 Build)

Budget control & change order management.

## ADDITIONAL BIM 360 PRODUCTS SOLD SEPARATELY

### **B** AUTODESK® BIM 360® PLAN

Software to build reliable work plans using Lean Construction principles.

### **B** AUTODESK® BIM 360® OPS

Mobile-first maintenance management solution.

For more information on subscriptions and pricing:  
[autodesk.com/bim-360/pricing/](http://autodesk.com/bim-360/pricing/)

## **B** AUTODESK® BIM 360® DOCS

Securely publish and distribute construction drawings, documents, and models in a single, cloud-based repository.

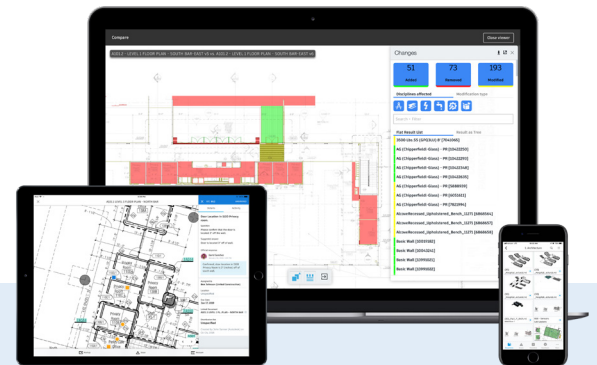

### KEY CAPABILITIES:

- Unlimited storage
- Document control & versioning for all file types
- Revit & AutoCAD Publishing
- 2D & 3D viewing & compare
- Document sets
- Approval workflow
- Design issues & markups
- Mobile access
- Reporting & analytics

“BIM 360 Docs document management solution is intuitive and easy to engage with. We have the ability to prove who had what when, and what they were able to do with it.”

MIKE BECKETT, Hill Bespoke Ltd

## Common Data Platform

Rather than working in siloed systems, BIM 360 integrates the entire project workflow from design through construction across one common data platform. Teams can easily transfer information from one phase to the next while housing all project information and data within a single solution.

### Centralized Source of Truth

- Unified database with the most up to date information
- Eliminate multiple iterations and rework
- Deeper understanding of project data to help make informed business decisions

### Easy Team Handoff

- Fast adoption from one team to the next
- Cloud based connectivity for mobile and desktop
- Accessible historical data

### Improved Decision-Making

- Access to the right information at the right time
- All changes reflected in current state of published files
- Involve more stakeholders earlier on in the construction process
