

**Duration:** 1 Day

**Prerequisites:** Prior Revit knowledge would be useful, as well as a basic understanding of using web browsers and Mobile devices is recommended but not essential.

**Course Outline:**

Autodesk BIM 360 Coordinate (formerly BIM 360 Glue) is BIM collaboration software for coordination and management. It provides anytime, anywhere access to connected project information. This software accelerates multi-discipline collaboration, reduces coordination review cycles, and improves project efficiency. This one-day course will familiarise the user with the platform.

**Topics Covered:**

- Docs Onboarding
- Introduction
- Project Onboarding
- BIM 360 Co-Ordination Overview
- Differences Between Glue and Co-Ordinate
- Project Creation
- Activation of Service
- Adding Project Members
- Folder Creation
- Roles and Permissions
- First time on a BIM 360 Project
- Configuring your Project Dashboard
- Uploading Non-Cloud Files
- Saving Cloud Models and Publishing the relevant views from Models
- Creating Co-Ordination Spaces
- Viewing Clashes
- Navigating the BIM 360 Interface
- Creating Mark-ups
